| <b>Soft Skills</b>           | Problem Solving, Quick Learner, Teamwork                                   |

## EXPERIENCE

---

**Software Developer Intern** Jan 2026 – Present  
Pentagon Space Pvt. Ltd., Bengaluru

- Currently undergoing training in Java, SQL, and Web Development technologies.
- Applied Object-Oriented Programming concepts in practical applications.
- Developed web applications using Java, HTML, CSS, JavaScript, and MySQL.
- Improved problem-solving and debugging skills through hands-on project development.

## PROJECTS

---

### Medicare - Hospital Management System

- Developed a Hospital Management System for managing patients, doctors, and appointments.
- Implemented CRUD operations and backend business logic using Java and MySQL.
- Designed responsive user interfaces using HTML, CSS, and JavaScript.

- Improved data management and operational efficiency through database integration.

## WELTH - AI Powered Personal Finance Platform

- Developed an AI-powered personal finance platform for expense tracking and budgeting.
- Assisted in integrating AI-based receipt scanning and chatbot functionality.
- Worked on frontend and backend modules with efficient data handling.
- Supported investment suggestions based on spending patterns and user goals.

## TM Tech Solutions - Corporate Website (Live Production Project)

*Live Website:* <https://tmtechsolutions.in>

- Designed and developed a modern corporate website for TM Tech Solutions, an industrial automation and fabrication company.
- Built a responsive and visually appealing user interface with smooth navigation and optimized user experience.
- Implemented SEO optimization including metadata, sitemap, structured data, and performance enhancements to improve Google search visibility.
- Developed multiple business pages including Home, About, Products, Services, Careers, Contact, and Get Quote.
- Configured custom domain, hosting, deployment, and continuous updates using Vercel.
- Technologies Used: Next.js, React, TypeScript, Tailwind CSS, HTML5, CSS3, JavaScript, GitHub, and Vercel.

## Salon Management Platform

- Developed a full-stack Salon Management Platform with modules for appointments, customer management, billing, inventory, and staff management.
- Implemented role-based authentication and REST APIs using Spring Boot, React, PostgreSQL, and JWT for secure and efficient operations.

## CERTIFICATIONS

---

- Java Full Stack Development Internship – **Pentagon Space** (2026)
- Full Stack Web Development – **CODTECH IT Solutions Pvt. Ltd.** (2026)
- Introduction to Artificial Intelligence – **IBM** (2025)
- Introduction to Generative AI Studio – **Google Cloud & Simplilearn** (2025)
- Web Development Certification – **upGrad** (2023)

## ACHIEVEMENTS

---

- Currently undergoing professional training in Java Full Stack Development at **Pentagon Space**.
- Developed 3+ academic and internship projects using Java, MySQL, JDBC, HTML, CSS, and JavaScript.
- Earned certifications from **IBM**, **Google Cloud**, **Simplilearn**, **upGrad**, and **CODTECH IT Solutions**.
